

Go International: *Sage ERP X3 Multi-National Features Make it Easy*

Sage ERP X3 makes it easy for your company to expand its presence internationally. The system supports multiple languages, currencies, companies, sites and legislations so you can run a sophisticated multi-site planning and distribution business in a multi-country environment as easily as a single domestic implementation. It is suited to multi-national companies desirous of developing their business in several countries without investing in a complex and costly global management system. Sage ERP X3 offers:

Built-in International Capabilities

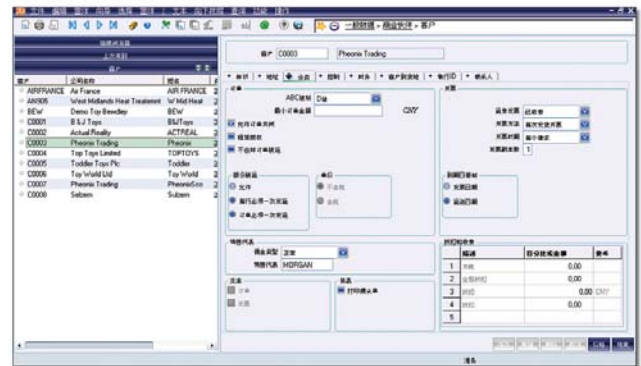

Designed to fit flexible mid-sized organizations, Sage ERP X3 is the system of choice for micro-multinational companies desirous of developing their business in several countries without investing in a complex and costly global management system.

Sage ERP X3 supports multiple languages, currencies, companies, sites and legislations so you can run a sophisticated multi-site planning and distribution business in a multi-country environment as easily as a single domestic implementation. Each user can work in his own language on one single system. Sage ERP X3 also handles multi-lingual data based on the third party to whom they're addressed (titles of articles, invoice text, etc.).

Easy Multi-Country Set-Up

The application is available in eight languages and legislations – including USA, UK, France, Italy, Portugal, Spain, Argentina and China – allowing users to access the system in their own language wherever they are.

Country-specific parameters, such as legal and market requirements, are centralized to offer a single solution. Sage ERP X3 makes it easy to share common data and processes between different foreign sites or subsidiaries, while respecting their own specific usages and business rules.

Sage ERP X3 is available in eight languages and legislations, including Chinese.

Quickly Operational

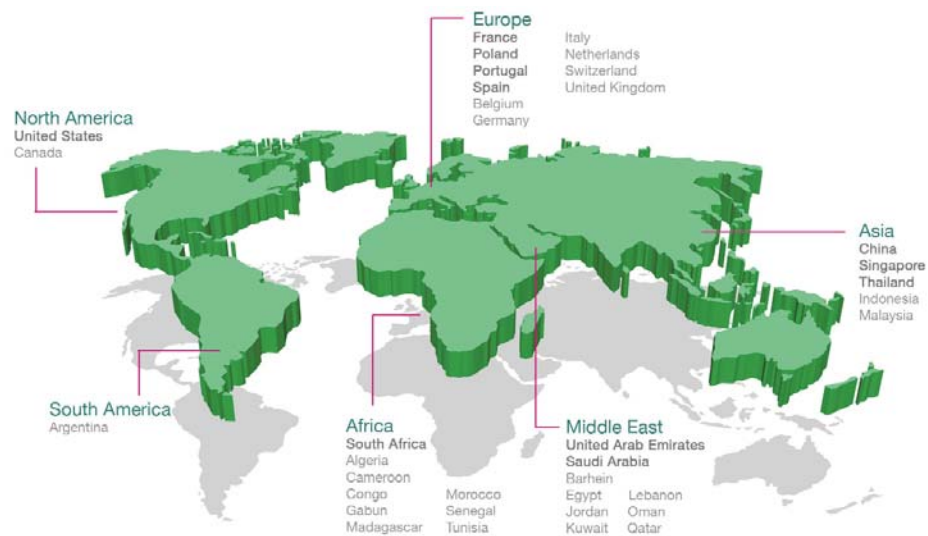

Sage ERP X3 provides country delivery sets including standard pre-settings to speed-up the implementation process in a new foreign site. Moreover, as a simple internet browser is sufficient for an authorized user to run the application, Sage ERP X3 allows your company to quickly provide a new office or plant with a fully operational management system without investing in costly IT infrastructure.

The scalability of the application allows you to organize a progressive international deployment, fitting your regional and/or functional priorities.

Worldwide Support Dedicated to Mid-Sized Companies

Sage ERP X3 is a solution developed and distributed worldwide by the Sage Group, a leading supplier of business management software and services to more than five million small and mid-sized customers. The company operates in 35 countries, providing the best local support to each customer.

To best serve mid-sized multi-country customers, our teams are not over-sized, nor under-sized but "human-sized": whether your project is centralized or locally-driven, you will find a Sage team able to support all of your branches locally as well as to provide you global assistance and reporting.
